

Hertfordshire Climate Change and Sustainability Partnership Inaugural stakeholder event (online via Zoom)

Thursday 3 December 2020, from 10am-12pm

Dear colleagues,

The Hertfordshire Climate Change and Sustainability Partnership (HCCSP) is comprised of all 11 of the Hertfordshire local authorities, along with the Local Enterprise Partnership. By joining together to tackle wider issues outside the direct control of individual authorities, the partnership is working collaboratively to deliver climate change targets for Hertfordshire and meaningful carbon reduction

The Partnership is pleased to be hosting an introductory event to share information and engage key stakeholders in the future work programme. In this event, we will introduce the partnership and its work and purpose and cover the four key topic areas:

- Water sustainability
- Carbon reduction
- Biodiversity, and
- Transport

Lesley Davies, Chief Executive of Herts and Middlesex Wildlife Trust will be welcomed as keynote speaker and will later join HCCSP's priority topic sub group leads on a panel for a Q&A with questions from delegates.

The event will conclude with reflections on the impact of Covid-19 and the sustainability agenda in a lively discussion led by Neil Hayes, Chief Executive for Hertfordshire Local Enterprise Partnership (LEP).

Please join us to find out more and receive an update on work plans and an overview to date. To book please visit Eventbrite: <https://bit.ly/32ZGLhy>

The agenda and details of the morning can be found overleaf.

Kind regards,

Cllr Graham McAndrew

Chair - Hertfordshire Climate Change and Sustainability Partnership

Hertfordshire Climate Change and Sustainability Partnership (HCCSP)
