LOVE PARKS

July 23rd - August 1st

PICNIC IN THE PARK

To celebrate Love Parks Week 2021, we have created this guide to the wilder part of Pishiobury Park. Enjoy the space, have a picnic and discover the beauty of your park.

Follow the map below to find the perfect area for a family picnic. Watch out for cowpats! Enjoy your picnic overlooking the park towards the osier bed.

Look out for meadow brown butterflies and ants nests; most likely the ginger field ant. Take a moment to listen for grasshoppers and crickets.

Wildflowers are not only stunning to look at, but also offer vital habitats and food sources for insects, butterflies, birds, small animals and other wildlife.

Go on a wildflower discovery near to the picnic site shown on the park map.

Countryside Management Service

Remember pick nothing, take nothing except photographs, leave nothing but footprints.

Park Map

And finally, take a moment. Lie down on the ground, and imagine what life must be like for all the plants and insects living here in the grassland jungle that stretches out before you.

Thank you for visiting Pishiobury Park
