

Place & Movement Planning and Design Guidance for Hertfordshire Contents

Hertfordshire County Council Highways and Growth & Environment

Part 1

Contents

- Chapter 1 - Background & Scope
- Chapter 2 - Areas of Responsibility and Contacts
- Chapter 3 - The Scheme Promotion and Development Management Process
- Chapter 4 - LTP4 Compliance
- Chapter 5 - Transport Assessments
- Chapter 6 - Parking Assessment
- Chapter 7 - Health & Safety
- Chapter 8 - Standards & Departures
- Chapter 9 - Areas of Responsibility and Contacts
- Chapter 10 - Technical Approval for Structures
- Chapter 11 - Drainage & Flood Management Compliance Testing & Approvals Process
- Chapter 12 - Network Management Requirements
- Chapter 13 - Traffic Regulation Orders
- Chapter 14 - Utilities
- Chapter 15 - Charges & Fees
- Chapter 16 - Adoption Stewardship Principles

Part 2

Contents

- Chapter 1 - Introduction to The Hertfordshire Vision
- Chapter 2 - Policies
- Chapter 3 - Sustainability, Health & Future Ready
- Chapter 4 - Validation and Master Planning
- Chapter 5 - Providing for Place & Movement
- Chapter 6 - Maintenance & Operation

Part 3

Contents

Chapter 1 - Introduction to Preparing for a Planning Application
including Design Menu Cards

Chapter 2 - Planning Public Realm

Chapter 3 - Planning Walking Infrastructure

Chapter 4 - Planning Cycling Infrastructure

Chapter 5 - Planning Passenger Transport Infrastructure
including Transport Hubs

Chapter 6 - Planning for Public Rights of Way

Chapter 7 - Planning for Parking

Chapter 8 - Planning Highway Links

Chapter 9 - Planning Highway Junctions & Crossings

Chapter 10 - Planning Landscape

Chapter 11 - Planning Highway Boundaries

Chapter 12 - Planning Earthworks

Chapter 13 - Planning Surfacing Materials

Chapter 14 - Planning Structures

Chapter 15 - Planning Road Restraint Systems

Chapter 16 - Planning for Drainage and Flood Prevention

Chapter 17 - Planning Street Lighting & Illuminated Signs

Chapter 18 - Planning Signs, Road Markings and Studs

Chapter 19 - Planning Intelligent Transport Systems

Part 4

Contents

Chapter 1 - Introduction to Detailed Design & Specification

Chapter 2 - Designing for Walking

Chapter 3 - Designing for Cycling

Chapter 4 - Designing for Passenger Transport

Chapter 5 - Designing for Public Rights of Way

Chapter 6 - Designing for Parking

Chapter 7 - Specification, Preliminaries & Site Clearance

Chapter 8 - Speed Management Features

Chapter 9 - Designing for Landscape

Chapter 10 - Designing for Highway Boundaries

Chapter 11 - Designing for Earthworks

Chapter 12 - Designing for Carriageway, Footway, Footpath and
Cycleway Construction

Chapter 13 - Designing and Constructing Structures

Chapter 14 - Designing Road Restraint Systems

Chapter 15 - Designing for Drainage and Flood Prevention

Chapter 16 - Design and Installation of Street Lighting and
Illuminated Sign

Chapter 17 - Designing Non-illuminated Signs, Road Markings
and Studs

Chapter 18 - Design and Installation of Traffic Signals & Intelligent
Transport Systems (ITS)& ITS)

Chapter 19 - Designing for Utilities
